SAMPLE

*This Rights Package is a factual documentation of production provenance, tool usage, and authorization status. It is provided for informational purposes and does not constitute legal advice or a legal warranty.*

# Executive Summary

This Rights Package provides comprehensive legal documentation for **Neon Dreams** (SI8-2026-0001), a 90-second AI-generated cyberpunk commercial/short. This summary highlights key risk factors and licensing eligibility at a glance.

### 🎬 Tool Provenance

- **Runway Gen-3 Alpha Turbo** (video)
- **ElevenLabs** (voice + sound effects)
- **Adobe Premiere Pro** (editing)

All tools used under paid commercial plans with receipts on file.

### 📋 No-List Compliance

✓ No celebrity likeness or real person faces

✓ No voice cloning of real people

✓ No copyrighted character imitation

✓ No brand IP imitation

✓ No political/deceptive content

### ✅ Rights Verified Status

**Status:** ✓ APPROVED

**Risk Tier:** STANDARD

**Review Date:** February 18, 2026

### 🔧 Tier 2 Eligibility

**Modification Rights:** ✓ AUTHORIZED

**Tier 2 Product Placement:** Available

Brand elements can be regenerated into neon signage and holographic ads (up to 30% screen time).

### 📊 Human Authorship Evidence

- **47 prompts** written by filmmaker across 8 scenes
- **180 video clips** generated; **23 selected** for final edit
- **42 minutes** of iterative editing and color grading
- **Documented creative control:** Shot selection, pacing, narrative flow, color palette

SAMPLE

## ⚖️ What This Package Provides

**✓ Included:**

- Tool provenance documentation
- Commercial use authorization proof
- Human authorship evidence
- No-List compliance verification
- Modification rights status

**✗ Not Included:**

- Legal advice or legal warranty
- E&O insurance or indemnification
- Training data audit or verification
- Platform approval guarantee

> **Buyer Recommendation:** This package provides factual documentation for legal review. Buyers should conduct standard legal review appropriate to their use case, risk tolerance, and jurisdiction. For high-profile campaigns, recommend legal counsel review of tool ToS and training data policies.

Full 9-field Chain of Title documentation follows →

SAMPLE

## 1. Tool Provenance Log

| Tool / Service | Version / Model | Plan Type | Production Period | Receipt Status |
|---|---|---|---|---|
| Runway ML | Gen-3 Alpha Turbo | Standard Plan ($12/mo) | Jan 20-28, 2026 | ✓ ON FILE |
| ElevenLabs | Voice Design + Sound Effects | Creator Plan ($22/mo) | Jan 25, 2026 | ✓ ON FILE |
| Adobe Premiere Pro | CC 2024 | Creative Cloud Subscription | Jan 28-29, 2026 | ✓ ON FILE |

**Primary Generation Tool:** Runway Gen-3 Alpha Turbo

**Supporting Tools:** ElevenLabs (audio), Adobe Premiere Pro (post-production editing)

### Tool Usage Summary:

- 47 prompts written by filmmaker across 8 scenes
- 180 video clips generated; 23 selected for final edit
- Human editorial control at prompt, selection, and post-production stages

---

## 2. Model Disclosure

### AI Models Used:

- **Runway:** Gen-3 Alpha Turbo (video generation model active January 2026)
- **ElevenLabs:** Voice Design text-to-speech model + sound effects generation

### Training Data Transparency:

- **Runway Gen-3:** Tool provider states in its published materials (Runway's public model card, as of Jan 2026) that Gen-3 was trained on licensed stock footage, public domain content, and proprietary datasets
- **ElevenLabs:** Tool provider states that voice models are trained on licensed voice datasets with consent; filmmaker confirms no unauthorized voice cloning used in this production

SAMPLE

*Note: SI8 does not independently audit training datasets. Training data transparency is based on tool provider public documentation and filmmaker attestation.*

### Tool Provider Terms Acknowledgment:

- All tools used under paid commercial plans with documented commercial use authorization
- Terms of Service reviewed February 15, 2026
- No tools flagged as high-risk or prohibited under SI8 Safe Lane criteria

---

## 3. Safe Lane Sign-off

**Safe Lane Status:** ✓ APPROVED FOR CATALOG

**Risk Tier Assigned:** STANDARD

**Reviewer:** SI8 Review Team | **Review Date:** February 17, 2026 | **Duration:** 73 minutes

### Review Summary:

"Neon Dreams" passed Safe Lane review with no flags or conditions. The work demonstrates clear human creative direction (47 prompts, extensive iteration documented, editorial choices in post-production). All AI tools used under paid commercial plans. No copyrighted IP, real person likeness, or brand imitation detected. Audio is entirely AI-generated under authorized commercial use terms. Content is brand-safe for mainstream commercial attachment.

### Notable Strengths:

- Exceptional documentation of human authorship (287-word declaration with specific creative decisions)
- Production process screenshots provide clear chain of custody
- Modification authorization covers holographic ad placements (strong Tier 2 potential)
- Visual style is distinctive and ownable (no derivative character imitation)

### No List Compliance:

✓ No celebrity likeness or real person faces without consent

✓ No voice cloning of real people

✓ No copyrighted character imitation (e.g., recognizable IP)

✓ No brand IP imitation (all signage fictional/AI-generated)

✓ No political persuasion content

SAMPLE

- ✓ No deceptive or deepfake content
- ✓ No adult/explicit content

**Risk Tier Rationale:**

Assigned **Standard** tier (not Certified) because primary generation tool is Runway Gen-3 (paid commercial plan), not Adobe Firefly. Standard tier reflects current best-practice AI tools (Runway, Pika, Sora) used under documented commercial authorization. Work is suitable for mainstream brand licensing with appropriate legal review by buyer's counsel.

## 4. Commercial Use Authorization

**Tool TOS Verification:**

| Tool | Plan Type | Commercial Use Permitted | Verification Date |
|---|---|---|---|
| Runway Gen-3 | Standard Plan ($12/mo) | ✓ YES — Standard Plan includes commercial use rights | Feb 15, 2026 |
| ElevenLabs | Creator Plan ($22/mo) | ✓ YES — Creator Plan authorizes commercial audio use | Feb 15, 2026 |
| Adobe Premiere | Creative Cloud | ✓ YES — All CC content created by user is commercially usable | Feb 15, 2026 |

**Plan Receipts:** On file with SI8 (January 2026 billing statements for all paid services)

**License Compliance:** All tools used within authorized commercial use terms as of production date (January 2026)

**Attribution Requirements:** None (no attribution required by tool ToS for commercial projects)

**Future ToS Monitoring:** SI8 monitors tool ToS changes quarterly. Updated Rights Packages may be issued if terms materially change affecting commercial use authorization.

## 5. Modification Rights Status

**Status:** ✓ AUTHORIZED — FULL WORK

SAMPLE

> Filmmaker Alex Chen has authorized SI8 to commission AI-regenerated brand-integrated versions of "Neon Dreams" for commercial product placement purposes. Authorization signed February 10, 2026 under SI8 Filmmaker Shopping Agreement.

### Modification Authorization Details:

- **Authorized scenes:** All scenes (full work)
- **Brand integration points:** Neon signage, holographic advertisements, background digital billboards
- **Technical approach:** AI regeneration of specific visual elements (signage, holograms) while preserving character, narrative, and core aesthetic
- **Character integrity:** Character appearance and movement remain unchanged
- **Filmmaker approval:** Filmmaker requests review of brand-integrated versions before buyer delivery (approval not to be unreasonably withheld)

### Tier 2 Eligibility:

✓ YES — FULL WORK

This work is eligible for Tier 2 product placement offerings. Brands can license custom AI-regenerated versions with brand elements integrated into neon signage and holographic ad placements.

### Filmmaker Approval Process:

1. SI8 commissions AI regeneration with brand elements
2. Filmmaker reviews integrated version (48-hour review window)
3. Filmmaker provides approval or requests reasonable adjustments
4. Final version delivered to buyer

---

## 6. Category Conflict Log

### Brand Categories - ELIGIBLE (All mainstream categories approved):

- Technology & consumer electronics
- Automotive
- Fashion & apparel
- Entertainment & streaming platforms
- Financial services
- Travel & hospitality
- Food & beverage (non-alcoholic)

SAMPLE

- Health & wellness (non-pharmaceutical)

### Brand Categories - RESTRICTED:

❌ Alcohol brands (filmmaker preference: maintain brand-safe positioning)

❌ Tobacco & vaping (legal restrictions + brand safety)

❌ Political campaigns or advocacy groups (SI8 No List policy)

❌ Gambling & sports betting (legal complexity + brand safety)

❌ Pharmaceutical products (regulatory disclosure requirements)

### Exclusivity Status:

- **Current:** None (available for licensing)
- **Preference:** Category-exclusive for product placement deals (if tech brand licenses Tier 2 placement, no competing tech brand in same version)
- **Territory:** Global (no geographic restrictions)

**Active Restrictions:** None (no existing licenses or conflicts as of Feb 18, 2026)

---

## 7. Territory Log

**Geographic Licensing:** ✓ GLOBAL (NO RESTRICTIONS)

### Territories - Authorized:

- Worldwide / All territories
- No geographic restrictions on licensing

### Territories - Restricted:

None

### Cultural Considerations:

- Content is culturally neutral (abstract sci-fi aesthetic)
- No culturally specific references that would limit geographic appeal
- Fictional signage uses abstract symbols (no real language)

SAMPLE

**Language Versions:**

- Original version is dialogue-free (ambient audio only)
- Voiceover can be added in any language without re-production
- Subtitle-friendly (no on-screen text requiring translation)

**Platform Compatibility:**

- Suitable for global streaming platforms
- Suitable for airline/in-flight entertainment
- Suitable for retail/ambient display use

---

## 8. Regeneration Rights Status

**AI Regeneration Authorized:** ✓ YES — SCENE-LEVEL

Filmmaker has authorized AI regeneration of specific visual elements for brand integration while preserving core creative vision.

**Authorized Regeneration Elements:**

1. **Neon signage** (building facades, storefronts) — can be replaced with brand logos, taglines, product imagery
2. **Holographic advertisements** (floating mid-air ads in cityscape) — can be replaced with brand 3D holograms, product demos
3. **Digital billboards** (background screens, ambient displays) — can be replaced with brand video content, messaging

**Protected Elements (NOT authorized for regeneration):**

- Character appearance, wardrobe, movement
- Core camera movements and framing
- Rain effects and atmospheric lighting
- Color grading and overall aesthetic tone
- Scene structure and pacing

**Brand Integration Authorization:**

Brands can license Tier 2 product placement with brand elements AI-regenerated into authorized signage and holographic ad placements. Integration preserves filmmaker's creative vision while allowing brand

SAMPLE

visibility.

**Technical Parameters:**

- Regenerated elements must maintain visual coherence with cyberpunk aesthetic (neon color palette, atmospheric lighting)
- Brand integration must not overwhelm core narrative or character moments
- Maximum 30% of screen time can show brand elements in any given scene

**Filmmaker Review Required:** ✓ YES (48-hour approval window for brand-integrated versions)

---

## 9. Version History

| Version | Date | Event | Reviewer / Party | Notes |
|---|---|---|---|---|
| v1.0 | Jan 28, 2026 | Initial production complete | Alex Chen (filmmaker) | Original 90-second edit finalized |
| v1.0 | Feb 10, 2026 | Filmmaker Shopping Agreement signed | Alex Chen + SI8 | Modification rights authorized; representation begins |
| v1.0 | Feb 15, 2026 | Submission to SI8 for Safe Lane review | Alex Chen | Complete documentation package submitted |
| v1.0 | Feb 17, 2026 | Safe Lane review complete | SI8 Review Team | APPROVED — Standard tier; catalog ID assigned: SI8-2026-0001 |
| v1.0 | Feb 18, 2026 | Rights Package v1.0 issued | SI8 Operations | This document; catalog entry active |

**Re-review Triggers:**

The following events would trigger a Safe Lane re-review and potential Rights Package update:

- Runway or ElevenLabs ToS changes affecting commercial use authorization
- Major platform policy updates (e.g., YouTube, Netflix AI content requirements)
- Licensing dispute or third-party claim related to this work
- Material modification to content (e.g., significant re-edit, new scenes added)
- Tool provider training data lawsuit affecting Gen-3 model

SAMPLE

**Version Update Policy:**

- Minor updates (TOS monitoring, clarifications): Rights Package version increments to v1.1, v1.2, etc.
- Major updates (content changes, re-review required): New Rights Package issued as v2.0

---

## Supporting Documentation (On File with SI8)

- ✓ Filmmaker Shopping Agreement (signed Feb 10, 2026)
- ✓ Runway Standard Plan receipt (January 2026)
- ✓ ElevenLabs Creator Plan receipt (January 2026)
- ✓ Adobe Creative Cloud receipt (January 2026)
- ✓ Human Authorship Declaration (287 words, signed)
- ✓ Production process screenshots (12 images: prompt examples, iterations, Premiere timeline)
- ✓ Safe Lane review checklist (completed Feb 17, 2026)
- ✓ No List compliance verification (completed)

**Available Upon Request (for qualified buyers under NDA):**

- Full prompt log (47 prompts with iteration notes and rationale)
- Runway generation history (180 clips with selection criteria documented)
- Adobe Premiere Pro project file
- Filmmaker portfolio and prior work samples

---

## Usage Notes

**Recommended Use Cases:**

- **Tech brand commercials** — Perfect for consumer electronics, software, mobile devices
- **Automotive advertising** — Futuristic/electric vehicle positioning
- **Streaming platform content** — Ambient/background content, sci-fi category
- **Retail/experiential** — In-store displays, trade show content, ambient loops
- **Fashion & apparel** — Urban/streetwear brands, futuristic product launches
- **Editorial** — Stock footage for sci-fi/tech articles, video essays

SAMPLE

### Tier 1 Licensing (As-Is):

License the work as-is for use in commercials, content libraries, editorial, or ambient display. No brand integration, no modifications.

### Tier 2 Product Placement (Custom Brand Integration):

Commission AI-regenerated version with your brand's logos, products, or messaging integrated into neon signage and holographic ad placements. Filmmaker approval process included. Category-exclusive available.

### Buyer Guidance:

- Content is brand-safe for mainstream commercial use
- No material risk indicators identified under SI8 Rights Verified review criteria (reflects internal risk assessment as of review date; this is not a legal determination)
- Buyers should conduct standard legal review appropriate to their risk tolerance and use case
- For high-profile campaigns, recommend legal counsel review of tool ToS and training data policies
- For broadcast/streaming, verify platform AI content policies (requirements evolving 2026)

### Attribution:

- No filmmaker attribution required for licensing use
- SI8 recommends crediting filmmaker for goodwill and future collaboration opportunities
- Suggested credit: "Directed by Alex Chen"

---

## Risk Mitigation Summary (For Buyer Legal Counsel)

### What This Rights Package Provides:

1. **Documented provenance:** Complete chain of custody from AI generation to final delivery
2. **Commercial use authorization:** All tools used under paid plans permitting commercial licensing
3. **Human authorship evidence:** Detailed declaration of creative direction and editorial control
4. **IP clearance:** No copyrighted characters, brand imitation, or unauthorized likeness use
5. **Safe Lane vetting:** SI8 review against brand safety and legal risk criteria
6. **Modification rights:** Authorized AI regeneration scope for product placement (Tier 2)
7. **Version tracking:** Audit trail for future TOS monitoring and re-review triggers

### What This Rights Package Does NOT Provide:

- Legal warranty or indemnification (SI8 is not a law firm)

SAMPLE

- Guarantee against future tool provider ToS changes
- Protection against evolving AI content regulations
- E&O insurance coverage (buyers should maintain own E&O policies)

### Buyer Risk Assessment Framework:

- **Low-risk use cases:** Editorial, internal presentations, low-visibility content
- **Medium-risk use cases:** Organic social media, streaming platform content, regional campaigns
- **Higher-risk use cases:** National broadcast, high-profile brand campaigns (recommend legal counsel review)

### Recommended Buyer Actions:

1. Review this Rights Package with in-house or external legal counsel
2. Assess risk tolerance based on use case, budget, and visibility
3. For broadcast/streaming, verify platform AI content policies as of license date
4. For high-profile campaigns, consider legal opinion on tool ToS and training data exposure
5. Maintain E&O insurance appropriate to campaign scale
